

USER GUIDE: G-Oyster Personal Energetic Vitaliser

GEOMACK GOES POCKET SIZED. G-Oyster is for for the new "ocean of electromagnetic pollution" that modern urban society is "swimming in" every day.

We now know that things which are invisible and imperceptible to us are not necessarily harmless.

Electromagnetic Stress is often an unrecognised and undiagnosed factor in many ailments and slow recovery. Contributing factors to Electro Stress include : increasingly higher powered mobile phone masts (cell phone towers), substations, pylons, DECT phone systems, mobile phones (cell phones), tablets, computer equipment, household appliances, Wi-Fi and Bluetooth systems.

Electro Stress is now pervasive.

It might be very difficult to cancel out or shield against Electro Stress, but we can at least protect ourselves against the effects it has on us and we can do so with Geomack Energetic Vitalising Technology. Now available right in your pocket.

GET VITALISED with G-Oyster:

The technology that is so energising for humans, that is found in the rest of the Geomack range of Energetic Vitalisers has now been miniaturised down into G-Oyster - the smallest powerful Personal Energetic Vitaliser ever.

The conclusion of many years of research and development in miniaturising the unique Geomack Energetic Vitalising Technology has culminated in the release of a product that is totally revolutionary in personal energetic protection - both in terms of Electro Stress and Geopathic Stress, while at the same time being an amazing personal energy booster that can be carried right in your pocket!

Protect yourself from the effects of Electro Stress at home, at work and on the move. As well as in your pocket, there are many other ways to use G-Oyster. Put it in your handbag/rucksack. Have it by your bed. Or under your pillow. Take it with you on holidays and business trips. Take it in the car to be more refreshed on your journey. Have it on your desk or by your computer to reduce tiredness and instil calm. The G-Oyster must be very close to you, or on your person, to be effective.

Geomack Energetic Vitalising Technology has proved itself as the most successful personal energy technology available on the market, which is proven by the track record of the products which have utilised it.

A money back guarantee has been offered on all Geomack retail orders since production started in 1988 and the return rate has remained under 1%, which indicates a customer satisfaction rate of over 99%.

Resting Procedure:

In rare cases, if Geomack products are working very hard against a lot of Geopathic Stress and/or Electro Stress, then sometimes it is beneficial to rest them.

Place your G-Oyster, laying flat, on a 'bed' of salt overnight. The area of salt should be a bit larger in diameter than the G-Oyster. You can use Rock Salt or Himalayan Salt, but regular Sea Salt is fine. It is convenient to create the 'bed' of salt in a bowl. A layer of salt about 1 cm (half an inch) or more, is recommended.

USER GUIDE: G-Oyster Personal Energetic Vitaliser

Top Tips:

- Try placing the G-Oyster on a sore place or injury
- If you feel the need, try to place it on or next to your head
- Remember to drink plenty of water to help the detox process
- You can sleep with the unit in bed, next to your body or under your pillow

Specifications:

Thickness at the thickest point: 2.4 cm , Just under 1"
